CHICAGO, WEDNESDAY, DECEMBER 16, 1874.

NUMBER 116.

ROYAL BAKING POWDER. A CARD. THE BAKING POWDER QUESTION ONCE MORE.

Whereas, In a recent examination by Prof. Blaney, a leading chemist of Chicago, these points were fully established:

- 1st. That a pure quality of Baking Powder must have weight as well as bulk, and that the standard article, when pure, must weigh 16 ounces when sold in what are known as pound cans.
- 2d. That the only Baking Powder out of several that were examined was found up to this standard was the one manufactured by the ROYAL BAKING POWDER CO. OF NEW YORK.
- 3d. That in order to break the force of the conclusion arrived at by Prof. Blaney, the manufacturers of the light-weight Baking Powders assort by way of reply that TWO teaspoonfuls of the light-weight article will produce better results than THREE teaspoonfuls of the full-weight Baking Powder.

Intelligent dealers and consumers should bear in mind that the statements of the manufacturers of the light-weight Baking Powders are without a particle of evidence to support them, and contrary to the conclusions arrived at by Prof. Blaney: whereas it is a well-known fact that the only HEALTHFUL, RELIABLE BAKING POWDER is one that is made from genuine cream tartar (a pure grape acid), of which it requires 16 ounces to fill an ordinary pound can, and the recent analysis of several light-weight Baking Powders clearly shows that they are made from dangerous patent cream tartars, and are easily adulterated with light bulky substances, to the great detriment of the health as well as the pocket of the consumer.

Among the evidences of the superiority of the ROYAL BAKING POWDER, it may be stated that it has received the indorsement of the Board of Health of New York City.

The ROYAL BAKING POWDER received the highest premium at the Vienna Exposition for making a pure, healthful Baking Powder.

The ROYAL BAKING POWDER, after four examinations by the best chemists of Cincinnati of samples bought indiscriminately from grocers, received the highest premium at the Cincinnati Exhibition of last year. It may be added here that several of the best known light-weight Baking Powders were also exhibited in competition, and that, after the most thorough examination, the Royal Baking Powder was declared entitled to the highest prize.

The ROYAL BAKING POWDER CO. are the oldest manufacturers of Baking Powders in the United States, and several times the largest, so that every motive to maintain their pre-eminence is an additional guarantee to the trade and the public that the ROYAL BAKING POWDER will always be maintained as the purest and the best sold, whether tested by the standard of measurement or weight.

BISHOP HARRIS.
The honorable location of Bishop W. L. Harris, of the Methodist Episcopal Church, is a thing very important to the liking of the Methodist church, who regard it as eminently proper that Chicago should have a resident bishop, and are particularly pleased that Bishop Harris should be located here. The several ways mentioned for his removal to the city have been rejected.

ethnologists of Chicago on an opportunity to become personally acquainted with their Bishop, and if this visit was made, it was due to no fault of the good people of Trinity, who did everything in their power to make the occasion agreeable. The Bishop was a man of a most unobtrusive, unassuming, and cheerful, easy bearing of the wife and daughters, adding little to the enjoyment of all present. At the introduction, a shaking of hands, and a few words of greeting, and the circumstances attended of, but these were enough to make the recipients a memorable success in their lives. The Bishop's visit to the church basement was duly appreciated by all the priests, and it is reasonably late hour the morning dispersed.

OBITUARY.
DEATH OF SAMUEL PEARCE.

Mr. Samuel Pearce, father of Messrs. Myron L. Pearce and J. Irving Pearce, died in this city at the age of 82, after a long and useful life. He was born in Middlesex, Yates County, N. Y., July 27, 1792, and was a soldier in the war of 1812. He came to Chicago from Clifton Springs, N. Y., in 1864, and has resided here ever since. In his earlier years he was one of our most active and influential citizens, and took much interest in local politics. He leaves an aged widow, who is well known in the city, and a family of six sons. He has been the father of five children, but three of them have died and gone before him. The former wife of Mr. H. O. Stone, whose venerable tomb at Rosehill is known to all who visit that garden of the dead, was the daughter of Mr. Pearce. He was the father of their eldest son, died last August, and was well known as one of the former proprietors of the Mack-Carter store, and Mr. Samuel Darcus, who died in the fourth year, died in this city some twelve years ago.

Mr. Reed—I have heard something of the kind. Do you know of any "Justices" who do not have warrants?

Mr. R.—It is not my desire to accuse any one, but it is asserted that Justice Bayon continues to issue warrants for the "Justices."

Mr. Reed—There is no more right to act as a Justice of the Peace since last December. He is of qualified, and lays himself open to prosecution.

Mr. R.—Suppose that a citizen is arrested by a Constable on a legal warrant, what redress has he got?

Mr. Reed—He can bring suit for false arrest, and make it hot for the bogus Constable.

Mr. R.—Suppose that the warrant is all correct and the Constable and the Coöperator act far back away with the power of the former?

Mr. Reed—No man has any right to serve a warrant, or to arrest a citizen on that warrant, unless he is authorized by law to do so. He is not a constable, without authority, is simply an outlaw.

Mr. Reed—If a citizen is arrested on a warrant, and the warrant is not correct, what redress has he got?

The deceased has always been remarkable for his vigor and clear up to his last moments. He has hardly ever been sick, and enjoyed his usual health up to one week ago. On Thursday morning he was taken ill, and in a few days he was in the last stages of the disease. The consequent sickness rendered him so feeble that he hopes for his recovery, and he is now somewhat recovered, and he is finally able to move on Monday afternoon.

He has been weak, though comforted by loving children and grandchildren, feels the loss of his wife, and is now residing at the residence of Myron L. Pearce, 1055 Indiana avenue, to-morrow morning at 11 o'clock.

PHYSICAL CULTURE.
WHAT IS IT?
The Physical Culture Society met at the rooms of the Athenæum yesterday afternoon. The attendance was limited, for some cause or another, but the meeting was a happy one, and we were told "Physical Culture" is but no lame sort of short-dress, in other words dress reform. The short-

by a bogus Constable?
Mr. Reed—Certainly.
R.—And a citizen, in resisting arrest in knowledge of his rights, would not be liable to criminal prosecution?
Mr. Reed—Not at all. The knocking down could have been done by anyone without involving me.
Q.—You are going to make this so plain that the blind-est of them can see it before very long.
With this promise Mr. Reed returned to his seat. His neighbor departed, exclaiming pathetically, "Alas, poor Baryon!"
The Tribune published the other day a list of names of persons furnished by the County Clerk. Now, all that is needed is to ask the clerk. No, wait, if any man whose name does not figure there pretends to molest his neighbor, he has no right to force and wound him. There is law for it, it seems.

subject of the meeting has not yet been discovered. The President, Mrs. Swisshelm, was absent, as was also the Treasurer. The latter was charged, however, in a joke war, with having absconded with the Society's funds, amounting to \$2.08, but no notice was taken of it.

Mrs. Babbert presided, and the first order of business was to determine whether or not the Society had an existence. This question was decided by the vote of amalgamation, and the Athenaeum was broached. In the discussion it was understood that the Athenaeum was unwilling to accept of the fact that the City and County Society had an existence, which it would endeavor to perpetuate.

Dr. Woodward then read a paper on "Physical Development." Following this came several little speeches, and the election of Mrs. Underwood as President. The Society then adjourned until the afternoon of the first Saturday night in January.

GENERAL NEWS.

THE ADLPHI.

The work upon that chaste temple of high-crowned amusement into which Mr. Grover is conducted, is a thing of beauty. The work is done with great rapidity,—with *prima* too much haste to allow everything to be finished off in perfect good taste. The critical public—about fifty of them daily—are coming in person to this place, and are not a little surprised at the complaining of the small size of the panes of glass—*poor*—panes one alliterative person called them—which Mr. Grover has stuck in his window-sashes. They assert that they are so small that they cannot see the scenery outside, and that they resemble the windows of a cottage rather than a grand theatre. Of course, these people have been argued with, and told that Mr. Grover does not own the Commodore lake yet, and that he expects to put in a lot of large plate glass and similar luxuries. Moreover, the acting will not be materially affected by the win-

When they got convinced, as they sometimes do, they began the attack in another quarter, and want to know if Mr. Grover should follow as a leader in the movement to cut down the grove of trees—dry pines—on the top of the granite, meaning, they say, a mass of firewood, which, if ignited, would ruin the walls, the bones, the very life of the city. Mr. Grover generally made it clear, if Grover had the money, he would build with iron, or the cedar, or the granite, or the marble, or the stone, or the incombustible wood; but as a man who has no money wherewith to buy a dinner goes free-lunching, so Grover is reduced to dry pine.

When they asked him for a plan of education, when it rented this bit of school property to Mr. Grover for the purpose of giving him a place to study, he said that he had no such fashion, took any kind of industry in carrying out these various laws. They say the Board did not, but certainly it could not have been so needless. If the Board had not got out of the hands of the old answer, and say Mr. Grover had not the

upon them by the rules of the Citizens' Association. From what can be learned from persons conversant with the matter, it is thought that they will report favorably on the proposed action, and will limit their impetuousness to the small water-main.

THE FOLLOWING COMMUNICATION WAS YESTERDAY SENT TO PRESIDENT DIXON:

CHICAGO, DEC. 16, 1874.

SIR: In response to a resolution of the City Council passed Monday, Dec. 8, inviting the Citizens' Association to build and operate street-cars on Walsh avenue, between Lake and Third streets, the Citizens' Association of South Atlantic Railroad Company make the following offer, to wit:

1.—I lay a double track from Lake street to Twenty-second, and single track from Twenty-second to Thirty-second street, and double track thence to Thirty-third street.

2.—To be constructed on or before the 1st of January, 1875.

3.—To build and keep in good order said street from curb to curb.

4.—To run saloon-cars of the same class and finish as those used on Third avenue, New York, at the rate of 10 cents per hour.

Seems—To pay 1 per cent of its annual net earnings into the City Treasury, to be appropriated for such purposes as the board may determine.

The resolution required bond in the penal sum of \$100,000, which the board is ready to give within the time prescribed in said resolution.

If our offer is accepted, it saves to the taxpayers \$125,000. This estimate is verified by bids made by a number of the most responsible street-paving firms in the city.

THE BOARD OF HEALTH.

THE REGULAR WEEKLY MEETING of the Board of Health was held in their rooms yesterday afternoon, all the members being present. The Sanitation Committee reported that during the week of the past week there were 97 deaths, two less than during the preceding week. Of these there were 46 males and 51 females. Colored 1. Dr. Williams, Sanitary Inspector, reported that during the week he had examined the pupils of the following schools with the following results:

Franklin School, 1,154 pupils, 61 unsafe.
St. Ann's School, 1,000 pupils, 10 unsafe.
Ogden School, 682 pupils, 70 unsafe.
Dr. Munscheimer reported that he had examined the pupils of several schools in his district, and that nearly one out of the whole number needed revaccination.

The Health Officer's report shows that there were no cases of smallpox reported in the past six months abroad. He called the attention of the board to the sewer on the south side of Haled street bridge. The subject was returned to the Committee, and the Board then adjourned.
